COURSES DONE

- ✓ **Enterprise Design Thinking Practitioner**
  IBM
- ✓ **Risk Management for Cyber Security & IT Managers**
  Cyber Security
- ✓ **Compliance Risk Management**
  Governance
- ✓ **IT Audit Fundamentals, Controls, Standards, Policies**
  IT Audit
- ✓ **Ontology – Enterprise Context Management**
  Knowledge Architecture

PROTOTYPING TOOLS

DESIGN & SYSTEMS

Mockups, UI systems & tokens

Figma · Design Systems · Adobe CC / XD · Balsamiq & FigJam · Google Stitch

AI ACCELERATION

Frontier models for UX ideation

Claude 3.7 · Google Gemini · Google AI Studio · OpenAI / ChatGPT · Antigravity · DeepSeek & Qwen

DEVELOPMENT & IDES

Agentic pair-coding & live UI

Cursor · Windsurf · VS Code · v0 by Vercel · Claude Code · MCP Protocol · GitHub

LOCAL MODELS & INFRA

Privacy-first offline workflows

Ollama · LM Studio · Local LLMs · Garuda AI Engine

EDUCATION

B.Com - Commerce

Osmania University

AV College of Arts, Science & Commerce, Hyderabad

Passed 2009

Professional Expertise

Innovative, AI-driven UX Architecture and Product Design Leader with 13+ years of experience shaping enterprise-grade digital products across B2B SaaS ecosystems. Expert in defining UX strategy and translating complex business and functional requirements into intuitive, scalable, and high-impact user experiences.

Specialized in integrating artificial intelligence and automation into modern UX workflows, enabling smarter, more adaptive user journeys. Proven track record in elevating product usability, operational efficiency, and user engagement across AI-powered platforms, Cybersecurity Automation, RPA, and Process Intelligence systems.

Highly skilled in designing end-to-end user experiences—from rapid task analysis and journey mapping to low- and high-fidelity prototyping, interactive dashboards, and enterprise-scale design systems.

> “ Passionate about leveraging strategic UX thinking and emerging technologies to build future-ready, intelligent digital experiences.

Remote Work Infrastructure

Dual-ISP 24/7 Redundancy · Multi-Display Telemetry · High-Compute Dedicated Rig · Global Time-Zone Synchronized

Equipped with an enterprise-grade personal workstation featuring high-end system configurations with 24/7 redundant internet connectivity. My dedicated setup ensures reliable, responsive, and secure collaboration with global teams across US, EMEA, and APAC time zones.

Experience

ORGANIZATION	DESIGNATION	DURATION
PV **ProVise Consultancy - OPTIMAS.AI** Dubai Based Startup	**Senior Product UX Architect** Creative Director	Sept 2022 - Nov 2025
RL **RLabs Enterprises** Client - Mindtree	**UX Lead** Product Design Lead	April 2021 - Sept 2022
EP **EPSoft Inc.** RPA & Automation	**Lead Consultant** UX Architect	Nov 2019 - Dec 2020

UX ENGINEERING | FROM SCREENS TO SYSTEMS

Traditional: LINEAR SCREEN-BASED WORKFLOW

01 Idea → 02 Wireframes → 03 UI → 04 Prototype → 05 Handoff

AI-Native: DYNAMIC SYSTEMS & AGENTIC ORCHESTRATION

01 Context → 02 Rules → 03 AI Agents → 04 Live Interface → 05 Test & Iterate

Transforming UX from static screen design into behaviour-driven, AI-powered, engineering-ready experiences with dynamic design system.

UX Domain Areas

- RPA
- E-Commerce
- Finance
- Banking
- Insurance
- Healthcare
- Smart Governance
- E-Learning
- Gaming
- Airlines
- Travel
- Cyber Security

Regular Practice

- Exploring new design concepts & tools
- AI Tools - Image & Video generation
- Researching new design trends
- Online tutorials for skill enhancement

THANK YOU!
